a Includes agricultural sciences and natural resources; biological, biomedical sciences; and health sciences.
b Includes mathematics and computer and information sciences.
${ }^{\text {c }}$ Includes psychology.
${ }^{\text {d }}$ Non-science and engineering fields not shown separately.
${ }^{e}$ Includes respondents who did not report sex.
${ }^{\dagger}$ A bachelor's degree is counted as "in same field as doctorate" if the fields of study for the doctorate recipient's bachelor's degree and doctorate degree are both in the same
major field category of the National Science Foundation's field of study taxonomy, except for engineering and education fields where broad field categories need be the same.
See table A-6 in the technical notes for a listing of major fields and their constituent subfields.

NOTE: Due to rounding, percentages may not sum to 100 .
