

COV Module Demonstration

For 2012 CMMI and CBET COVs

Steven H. McKnight, Rebecca F.
Rosen and Jessica Foley

April 12, 2012

Path Forward*

- **Longer term – Beyond tenure of WG Charter**
 - **Establish ENG A/E standing working group**
 - **Recruit and hire ENG A/E professional (New Slot)**
 - **Create detailed A/E framework processes under leadership of FT A/E professional, standing working group, and external help as needed (resources required)**
 - **Develop requirements and implement ENG knowledge management system (resources required)**
 - **Implement expanded COV role in ENG A/E activities**

Where are we now?

Features of the COV Module

- Tool to address 2009 COV recommendations
- New types of data & analyses about proposal review process so the COV can better answer relevant questions in the COV guidance
- Division-level portfolio analysis information:
 - Helps answer section 4 COV questions
 - Bonus portfolio analysis beyond COV guidance
- Resource for self-study and other ongoing analyses:
 - Longitudinal portfolio analysis
 - Identification of NSF-wide funding overlaps
 - Patents associated with ENG grantees (outcomes)
