Directions to ITAMP at the Harvard-Smithsonian Center of Astrophysics

From the T:

The Harvard-Smithsonian Center for Astrophysics is about a half-mile and a 15-minute walk west of Harvard Square. Leave the Harvard Station by the Church Street exit, turn right on Massachusetts Ave., then left on Garden Street at the Cambridge Common. Bear right after the Sheraton-Commander Hotel, and the CfA is another two blocks on the left. From the Porter Station, walk back toward Harvard Square, turn right on Linnaean Street and keep walking straight on into the CfA's entrance driveway. For more information, visit the MBTA's website at www.mbta.com.

From the bus or trolley:

Take the 74 or 78 bus or 72 trackless trolley from the lower level of Harvard Station and ask to be let off at the "observatory steps" on Concord Avenue. Climb the steps to the rear parking lot.

Directions to the Physics Department

17 Oxford St., Cambridge, MA 02138 | (617) 495-2872 phone | (617) 495-0416 fax

From Logan Airport:

By taxi: The ride to Harvard Square takes about 20-30 minutes, depending on traffic, and costs about \$35.

By subway: Take the shuttle bus to the Airport T stop (Blue Line). Take the Blue Line inbound four stops to Government Center. Change to the Green Line westbound and go one stop to Park Street. Switch to the Red Line outbound (toward Alewife), go four stops and get off at Harvard. The subway ride from Logan Airport can take 45 to 60 minutes. One-way ride is \$2.00.

Once in Harvard Square:

Upon exiting the "T" station, walk into Harvard Yard to the statue of John Harvard; from here take path to your left, exit the yard and veer left, around the Science Center (modern white building). The large red-brick building in front of you is Jefferson. Elevator access to both Jefferson and Lyman is through Lyman.
