

Science and Technology Centers Informational Webinar

Solicitation Overview & Leadership Insights

Thursday, September 19, 2024
3:00 p.m. to 5:00 p.m. (EDT)

The U.S. National Science Foundation Science and Technology Centers: Integrative Partnerships program ([NSF 24-594](#)) supports innovative, complex research and education projects that require large-scale, long-term awards. Science and Technology Centers (STCs) focus on creating novel scientific paradigms, establishing new scientific disciplines and developing transformative technologies while engaging the full spectrum of diverse talent that society has to offer.

The NSF STC program team is excited to announce an upcoming webinar about the STC program, with an emphasis on key leadership considerations for potential STC Principal Investigators / future Center Directors. Topics will include highlights from the STC solicitation, a presentation on common challenges experienced by Center Directors, and a panel discussion with current STC Directors, followed by a Q&A session.

Please share this information within your institution and professional networks. To receive notifications of future solicitations and events, sign up [here](#) for the NSF STC mailing list.

We look forward to your participation and engagement in this informative event.
