

Dr. Stephanie Rodriguez

AAAS Fellow

Directorate for Computer & Information Science & Engineering

Division of Computer & Network Systems

Class of 2015-16

Stephanie Rodriguez is an immunologist with a background in cellular immunology. She received her B.S. from Stanford University and Ph.D. from Washington University St. Louis. At WashU, Stephanie researched the development and survival of CD4 T cells in the absence of infection. While receiving her Ph.D., Stephanie remained involved in her community as Director of the science education outreach organization the Young Scientist Program. Work with this organization encouraged her to focus on initiatives aiming to increase diversity and participation in STEM fields and support teacher training after graduate school. In addition to broadening participation in STEM, Stephanie is interested in policy that helps build strong communities with access to work, health and educational resources. Stephanie was a recipient of the NSF-Graduate Research Fellowship Program award and inductee of the 2012-2013 class of the Bouchet Honors Society.
