CLOSEOUT MEMORANDUM

Case Number: I-16-0011-O

Page 1 of 1

We opened this investigation based on an anonymous letter received by an NSF division director¹ and forwarded to our office. The letter contained several allegations concerning misuse of position and inappropriate behavior by a former NSF rotator.²

Through interviews and reviews of records we determined that allegations were not substantiated. In short, there is no evidence to suggest that the rotator misused her NSF position.

Accordingly, this case is closed with no further action taken.
