## CLOSEOUT MEMORANDUM

Case Number: I-16-0034-O

Page 1 of 1

OIG initiated an investigation based on an anonymous complaint expressing concern regarding the termination of two employees<sup>1</sup> of NSF subcontractors, as well as lack of punishment of culpable contractor senior personnel.<sup>2</sup>

Our investigation determined that both subcontractor employees were terminated for violations of the contractor's and subcontractors' policies, including the companies' employee codes of conduct. We did not find any evidence of management wrongdoing.

This case is closed with no further action taken.
