CLOSEOUT MEMORANDUM

Case Number: I-16-0045-O

Page 1 of 1

We received an allegation that an NSF employee¹ was working another job during her telework days.

We conducted interviews, reviewed the employee's WebTA records, and obtained and reviewed the employee's employment and timecard records for her part-time job.² We compared her NSF work, telework, and leave time with her part-time work hours and found no evidence that the employee had worked at her part-time job during her NSF telework hours. Our investigation determined that the allegation was not substantiated.

Accordingly, this case is closed.
