CLOSEOUT MEMORANDUM

Case Number: I-16-0090-O

Page 1 of 1

We investigated information about a website¹ that improperly displayed the NSF logo and had a statement claiming that a particular product² was certified by NSF.

We determined that the allegations were substantiated and attempted to obtain contact information about the author of the website. We contacted the company³ that manufactures the product and they stated that the author of the website is not associated or affiliated with the company. During the course of trying to obtain additional information or leads, we found that the website no longer displayed the NSF logo and no longer referenced or contained any statements about NSF.

Accordingly, this case is closed.
