CLOSEOUT MEMORANDUM

Case Number: I13070044

Page 1 of 1

NSF OIG received information that an NSF employee¹ responsible for conducting property inventories knowingly submitted false information for the 2013 property inventory into NSF's Property Tracking System (PTS).

The employee was interviewed and admitted that she misrepresented to her supervisor² that she had performed the 2013 annual property inventory. She also acknowledged that she submitted a false certification in PTS to the NSF Property Custodian³ for equipment that was actually missing.

NSF OIG conducted a partial physical inventory of the items in the 2013 property inventory submitted by the employee and identified numerous issues and concerns regarding the employee's failure to perform her duties and properly account for federal government property.

We referred this matter to her supervisor for appropriate action.

Accordingly, this case is closed.
