CLOSEOUT MEMORANDUM

Case Number: I14110048

Page 1 of 1

This case stemmed from a prior NSF investigation¹ into an NSF award.² During the first investigation, we identified questionable expenditures in the general ledger. Because the items identified were unrelated to the allegations, we opened up this investigation. Based on our interview with the NSF Program Officer³ and review of supporting documentation, we determined the charges are allowable, sufficiently supported, and properly charged to the NSF award.

This case is closed with no further action taken.
