CLOSEOUT MEMORANDUM

Case Number: I15100052

Page 1 of 1

We received an allegation¹ that a National Science Foundation (NSF) Principal Investigator (PI)² attempted to make fraudulent charges to an NSF grant.³ The PI's University⁴ identified the charges before an NSF drawn-down was made. The University also found that none of the PI's other reviewed federal grants⁵ exhibited fraudulent charges. The University's internal controls effectively prevented loss to the government.

This case is closed with no further action taken.
