

About This Report

For FY 2014, the National Science Foundation (NSF) is producing three reports to provide financial management and program performance information to demonstrate accountability to our stakeholders and the American public. These reports are produced in accordance with the Office of Management and Budget (OMB) Circular A-136, *Financial Reporting Requirements*, and meet the requirements of the CFO Act, as amended by the Government Management Reform Act of 1994, the Federal Managers Financial Integrity Act of 1982, the Reports Consolidation Act of 2000, and the GPRA Modernization Act of 2010. All three reports are available on NSF’s website at www.nsf.gov/about/performance.

- This report, the **Agency Financial Report (AFR)**, focuses on financial management and accountability. It includes the results of NSF’s annual financial statement audit, management’s assurance statement, the NSF Inspector General’s (IG) memorandum on the agency’s FY 2015 management challenges, as well as management’s report on the progress made on the management challenges identified by the IG for FY 2014. The AFR also includes a brief discussion of the agency’s performance management framework.
- The **Annual Performance Report (APR)** will provide information on the progress NSF has made toward achieving its goals and objectives as described in the agency’s strategic plan and Annual Performance Plan, including the strategic objectives, performance goals, and Agency Priority Goals. The **APR** will be included in NSF’s *FY 2016 Budget Request to Congress*.
- NSF’s **Performance and Financial Highlights** report summarizes key financial and performance information from the **AFR** and **APR**.

For copies of these reports, please send a request to accounta@nsf.gov. We welcome your suggestions on how we can make these reports more informative.

NSF by the Numbers
