## Dear Colleague Letter: Changes to the CyberTraining solicitation

---

November 25, 2022

Dear Colleagues:

The Office of Advanced Cyberinfrastructure wishes to draw attention to changes to its Learning and Workforce Development programs to further its goal of democratizing access to the NSF-funded advanced cyberinfrastructure (CI) ecosystem. Specifically, the CI Professional project class in the Training-based Workforce Development for Advanced Cyberinfrastructure (CyberTraining) solicitation (previously [NSF 22-574](#)) has been removed and has been incorporated in the new Strengthening the Cyberinfrastructure Professionals Ecosystem (SCIFE) program ([NSF 23-521](#)). The Training-based Workforce Development for Advanced Cyberinfrastructure (CyberTraining) program has been revised to reflect this ([NSF 23-520](#)). The CyberTraining and SCIFE solicitations provide additional clarifications on the expectations from proposals. The next deadline for both programs is February 23, 2023, and is the third Thursday in January in subsequent years.

For additional guidance, please contact [asriniva@nsf.gov](mailto:asriniva@nsf.gov) for the CyberTraining program, [tgulbran@nsf.gov](mailto:tgulbran@nsf.gov) for the SCIFE program, or the contacts listed online for the respective solicitations.

Sincerely,  
Margaret Martonosi  
Assistant Director  
Computer and Information Science and Engineering

Manish Parashar  
Office Director  
Office of Advanced Cyberinfrastructure
