S&E = science and engineering.

NOTES: Excludes doctorate recipients who reported that they did not receive a baccalaureate degree. Institutions with the same number of doctorate recipients are listed alphabetically. Data in this table refer to research doctorates only and differ from doctoral degree data in this report that are based on the Integrated Postsecondary Education Data System Completions Survey. The greatest differences are in psychology, education, and medical or other health sciences. Reporting categories for ethnicity and race were expanded in 2013; comparisons to prior-year data should be made with caution.
