## FIGURE 7-A dl

Correct answers to factual knowledge questions, by respondent characteristic: 2006-16 (combined)

## Science and mathematics education

## Note(s)

See notes to Appendix Table 7-2 for an explanation of the trend factual knowledge of science scale. Categories do not add to total $n$ because "don't know" responses and refusals to respond are not shown. For science and mathematics education, "low" equates to five or fewer high school and college science or mathematics courses, "middle" is six through eight courses, and "high" means nine or more courses. "Don't know" responses and refusals to respond count as incorrect. Hispanic includes respondents of any race who identify as Hispanic. Other includes American Indian or Alaska Native, Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese, Other Asian, Native Hawaiian, Guamanian or Chamorro, Samoan, Other Pacific Islander, and some other race.
