10,000–24,999	10,274	10,915	10,453	9,861 r	13,219	14,000	15,884	17,897	12.7
25,000 or more	9,251	9,411	9,653	11,128 r	10,643	11,169	11,423	10,699	-6.3

r = data significantly revised; replaces previously published data.

NOTES: Beginning with 2001, excludes federally funded research and development centers. Amounts were derived by dividing total and company R&D funds spent during a calendar year by employment in March of that year. The R&D in this table is the industrial R&D performed within company facilities funded from all sources. The funds are the company's own; funds from outside organizations, such as other companies, research institutions, universities and colleges, nonprofit organizations, and state governments; and funds from the federal government. Excludes R&D performed outside of the company (e.g., R&D performed by other organizations) and R&D performed outside of the 50 U.S. states and DC (e.g., R&D not performed on U.S. soil by foreign subsidiaries or other foreign organizations). For definitions and more information about year-to-year comparability of the statistics, see technical notes and survey methodology.
