na = not applicable; question was not asked. NA = not available. r = revised from previously published data.

NOTES: Fields of science were updated in FY 2007 to reflect National Center for Education Statistics 2000 Classification of Instructional Programs. This table displays field name as collected in prior years. These data may not be comparable to data collected by field in FY 2007 and later years. Details may not add to totals due to rounding. Research animal space is listed separately and is also included in individual field totals. This question on repair and renovation costs was not asked for FY 2000–01; therefore, no data are reported. Only repair and renovation projects costing over \$250,000 for a single field were reported for FY 2002–05; repair and renovation projects costing over \$100,000 were reported in previous cycles.
