DOD = Department of Defense; ED = Department of Education; HHS = Department of Health and Human Services; NASA = National Aeronautics and Space Administration; NSF = National Science Foundation; USDA = U.S. Department of Agriculture.

^a Beginning with FY 1990, DOD research is reported separately from DOD development. DOD states that more than 90% of its development obligations reported for universities and colleges are performed at university-administered laboratories that are separate from academic departments. Furthermore, DOD states that much of its development obligations are for major systems development, that such obligations differ from its obligations for advanced technology development, and that DOD total development obligations are therefore not comparable with development obligations at other federal agencies. Refer to table 14 for DOD obligations to individual institutions, by R&D breakdown.

NOTES: The list of tribal colleges and universities is from the *White House Initiative on Tribal Colleges and Universities* (see <http://www.ed.gov/about/inits/list/whtc/edlite-index.html>). Tribal colleges and universities are designated in section 2 of the Tribally Controlled College or University Assistance Act of 1978.
