

TABLE A-12. Imputed postdoctoral appointees and nonfaculty researchers in science, engineering, and health fields: 2010

Status	Total ^a	Men	Women
Postdoctoral appointees	2,973	3,940	1,747
Foreign appointees	2,863	2,255	955
Nonfaculty researchers	1,242	847	556

^a This table reports the sum of the counts imputed in each of these cells/variables. Because some units report totals without complete details, the sum of the imputed details will often be higher than the related total.

NOTE: Data collection for postdoctoral appointees (postdoc) and other doctorate-holding nonfaculty researchers (NFRs) expanded considerably in 2010. Above counts were only items that were imputed using historical data; missing data for all other postdoc and NFR items were left as missing.
